

Frame Wrench

Features and benefits:

- Allows easy access to the bends and waves resulting from frame straightening
- Helps in achieving "pre-accident condition" look
- Eliminates unsightly hammer marks on the frame
- Designed for c-frame construction
- Eliminates telltale bends on frames from stretched metal during the collision
- Provides leverage to flatten out damaged metal
- Two different angles to access the difficult underside of vehicles
- Covered by Mo-Clamp's "Forever Warranty"

#4049 Frame Wrench

Specifications:

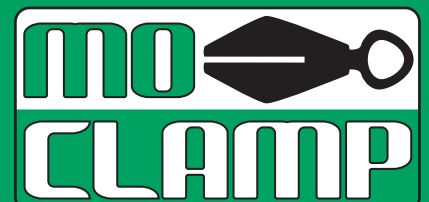

Overall length: 15" (381 mm)

Weight: 3.3 lbs. (1.2 kg)
